159 questions

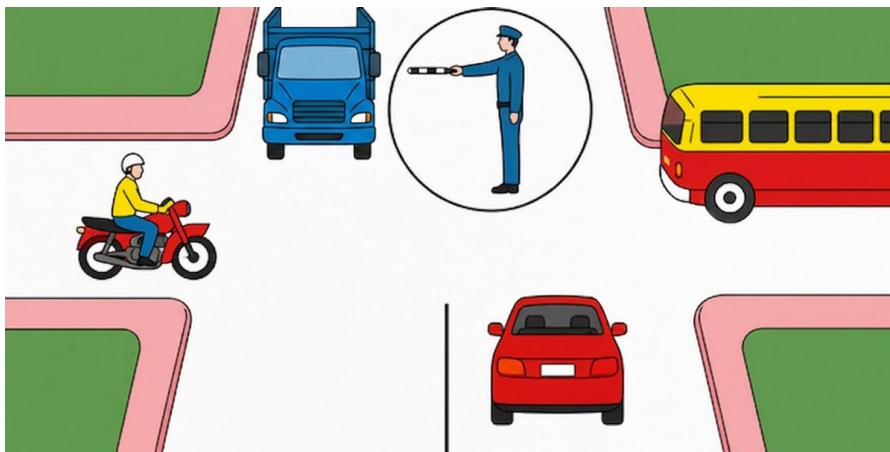

1. Traffic is prohibited for:

1. The red and white automobiles.
2. The blue, green, and white automobiles.
3. The white, blue, and yellow automobiles.

Answer: 2

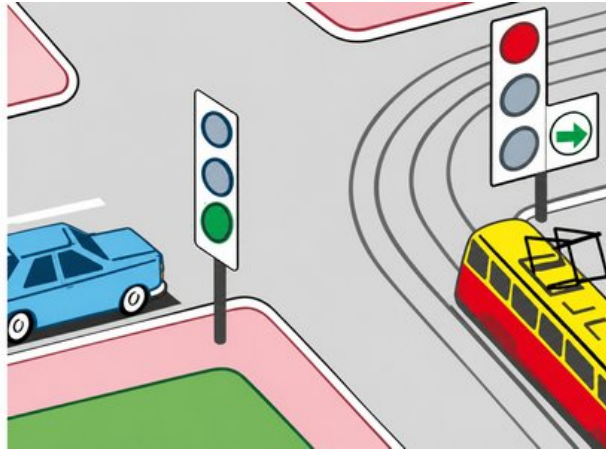

2. Which drivers are permitted to proceed straight ahead?

1. The bus driver and the motorcycle operator.
2. The passenger-car driver and the truck driver.
3. The passenger-car driver.

Answer: 3

3. Which vehicle driver must yield?

1. The automobile driver.
2. **The tram operator.**

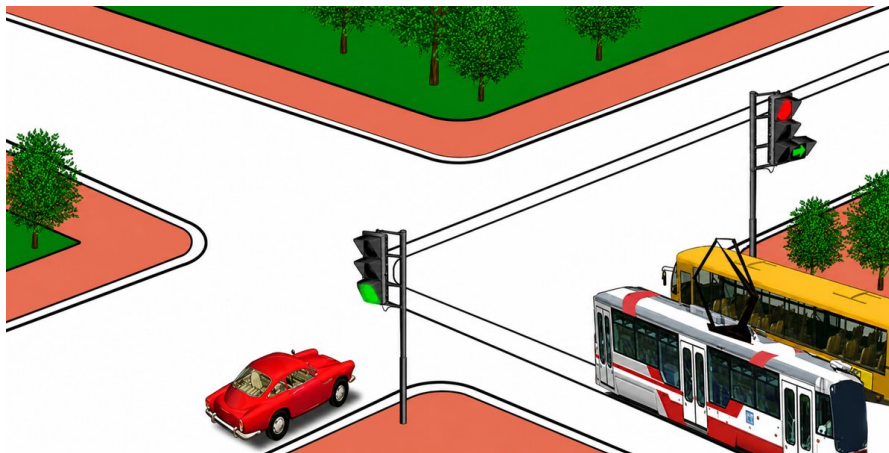

Answer: 2

4. If the traffic controller's right arm is extended forward, traffic of non-rail vehicles is permitted:

1. From the left side, to the left and by making a U-turn.
2. From the right side, to the right only.
3. **From the left side, in all directions.**
4. From the rear, to the right only.

Answer: 3

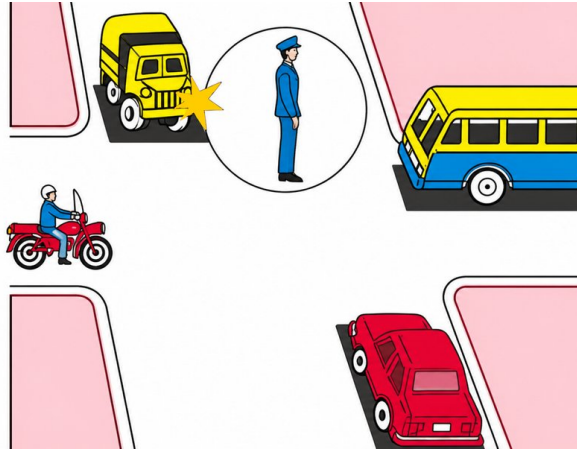

5. The vehicles will proceed through the intersection in the following order:

1. The tram and the bus, then the passenger car.
2. The tram, the passenger car, the bus.
3. **The passenger car, then the tram and the bus.**

Answer: 3

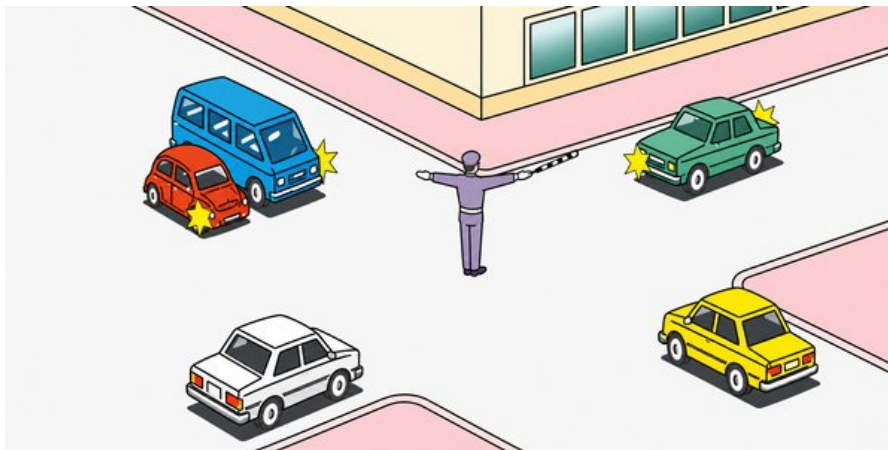

6. Which answer correctly identifies the vehicle or vehicles permitted to proceed?

1. The motorcycle.
2. The truck.
3. The bus.
4. The passenger car.
5. The passenger car and the truck.

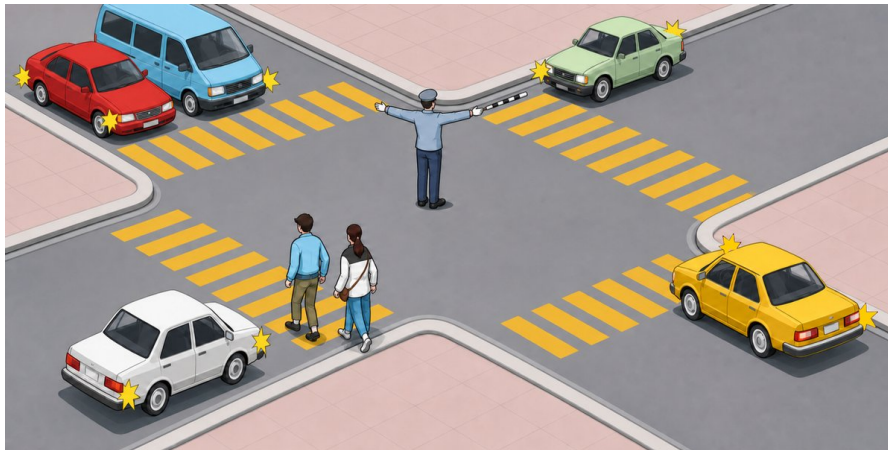

Answer: 4

7. This signal given by the traffic controller means that traffic is permitted for:

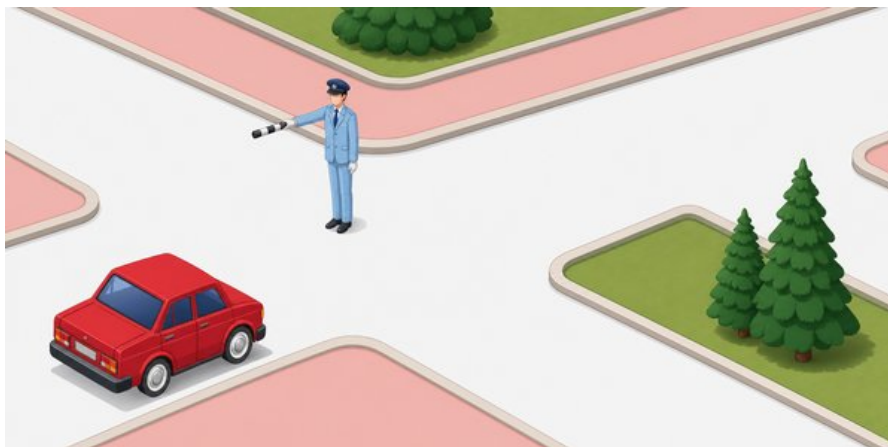

1. The blue and green automobiles; traffic is prohibited for the red, yellow, and white automobiles.
2. The blue, red, and green automobiles; traffic is prohibited for the yellow and white automobiles.

Answer: 2

8. Which vehicles may make a right turn?

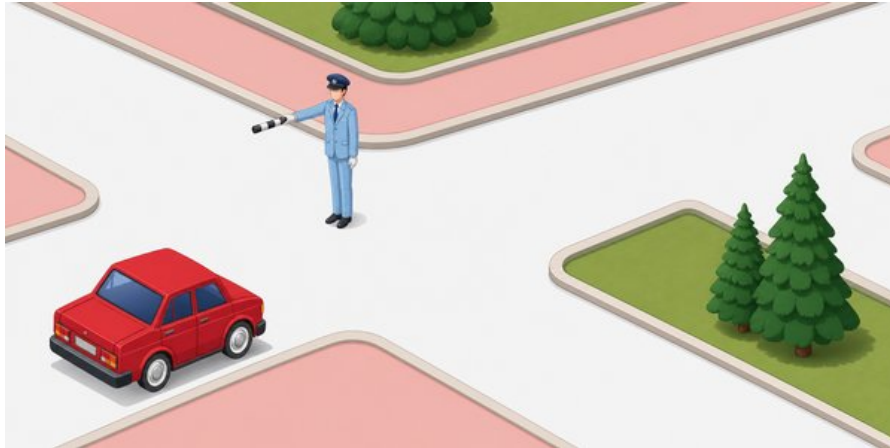

1. Only the red automobile.
2. All vehicles.
3. The red and green automobiles.

Answer: 3

9. Traffic is permitted:

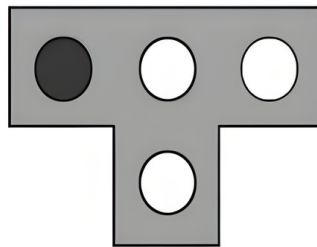

1. Straight ahead.
2. To the right through the first passage.
3. To the right through the second passage.
4. To the right through the first and second passages.

Answer: 2

10. Traffic is permitted:

1. To the right through the first passage.
2. Straight ahead and to the right through the first passage.

Answer: 1

11. This traffic signal prohibits traffic:

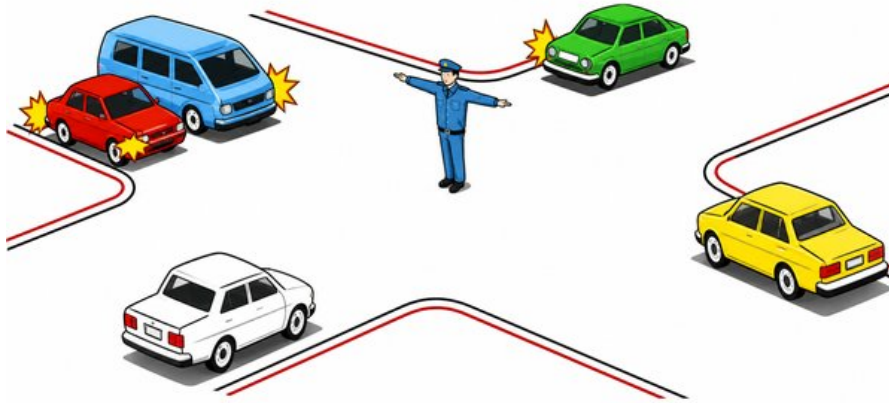

1. To the left only.
2. Straight ahead and to the left.
3. Straight ahead and to the right.
4. To the right only.

Answer: 1

12. If the traffic controller's arms are extended to the sides or lowered, traffic of non-rail vehicles is permitted:

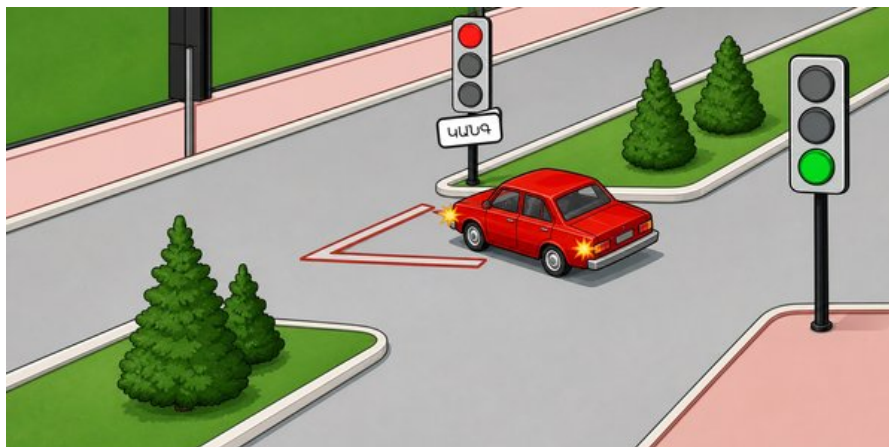

1. From the front and rear, to the right only.
2. From the left and right sides, straight ahead and to the right.
3. From the left and right sides, straight ahead only.

Answer: 2

13. Which vehicles are permitted to proceed?

1. The yellow and red automobiles.
2. The green, red, and white automobiles.
3. The white and green automobiles.

Answer: 1

14. Under which traffic signal may the automobile driver complete the U-turn?

1. Red.
2. Green.
3. Any signal.

Answer: 2

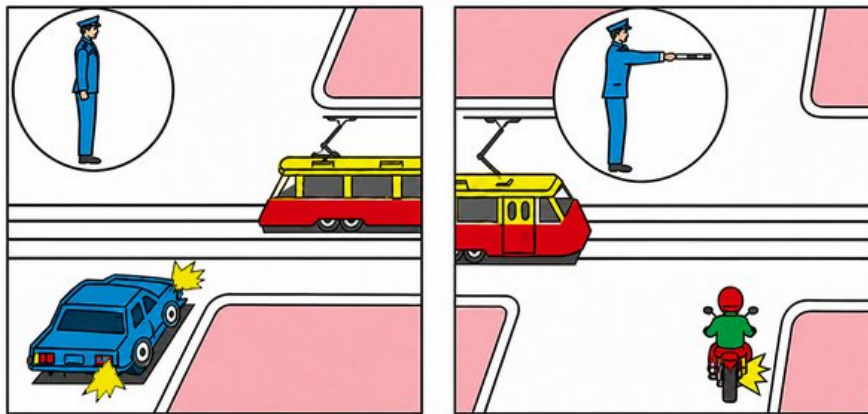

15. What does the combination of yellow and red traffic signals mean?

1. Traffic may begin.
2. Traffic is prohibited, and the signals indicate that the green signal will turn on shortly.
3. A vehicle with a special audible signal and flashing beacons activated is approaching the intersection.

Answer: 2

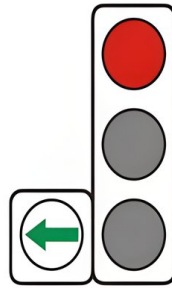

16. In which image is the driver making the turn correctly?

1. In the left image.
2. In the right image.

Answer: 1

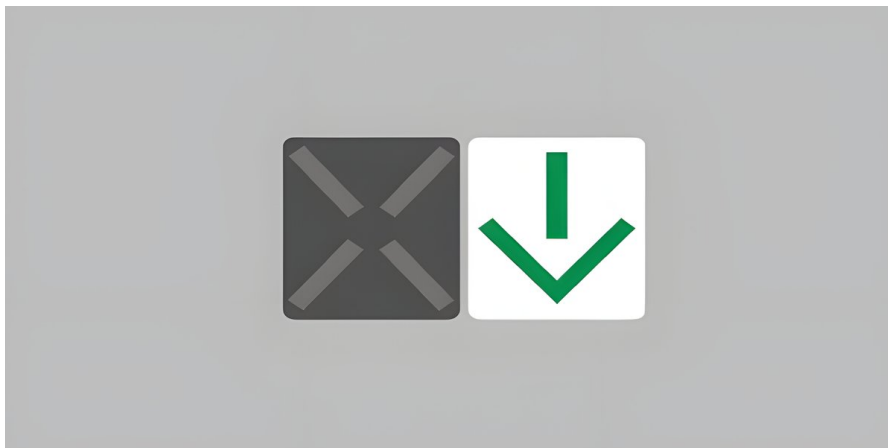

17. When the traffic signal is green, must the tram operator yield to vehicles approaching from other directions?

1. Yes.
2. No.

Answer: 1

18. This traffic signal is used to regulate traffic:

1. Across the entire width of the roadway.
2. In roadway lanes where the direction of traffic may change to the opposite direction.
3. Only in lanes designated for public transit vehicles.

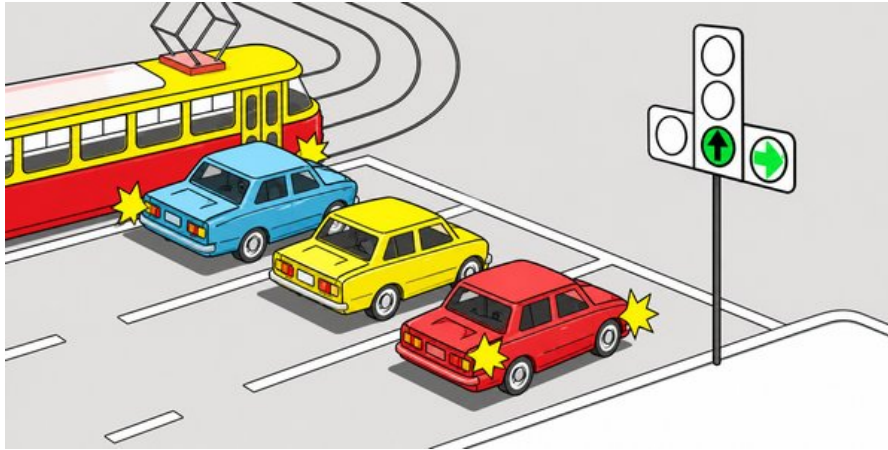

Answer: 2

19. If the traffic controller's right arm is extended forward, traffic of non-rail vehicles from the controller's left side is permitted:

1. In all directions.
2. To the left only.

Answer: 1

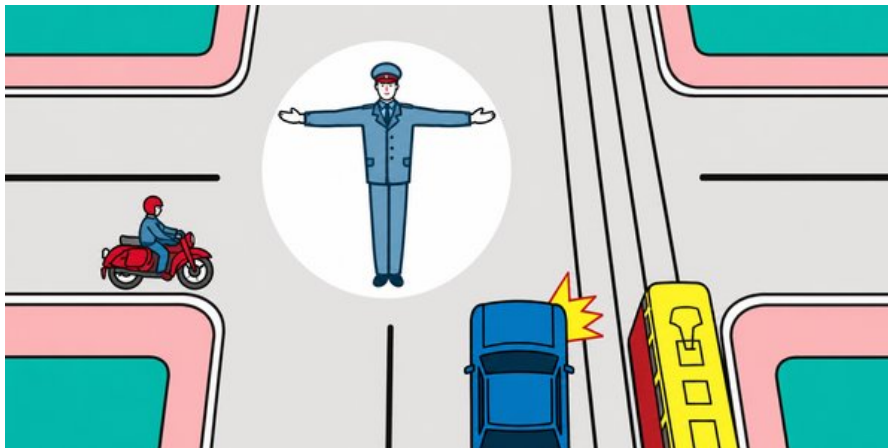

20. Which vehicles are permitted to proceed under this traffic signal?

1. The tram, the yellow automobile, and the red automobile.
2. The yellow and red automobiles.
3. All vehicles.

Answer: 2

21. Traffic is permitted for:

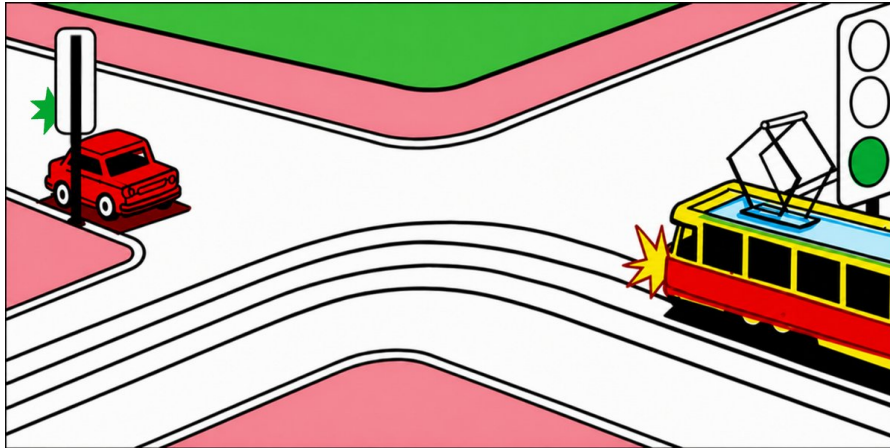

1. All vehicles.
2. The motorcycle.
3. The automobile and the motorcycle.

Answer: 2

22. If the traffic controller's arms are extended to the sides or lowered, traffic of non-rail vehicles from the controller's left and right sides is permitted:

1. Straight ahead and to the right.
2. Straight ahead only.

Answer: 1

23. Which vehicle driver has the right-of-way?

1. The automobile driver.
2. The tram operator.

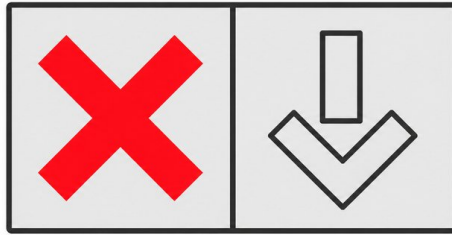

Answer: 2

24. Traffic is prohibited for:

1. The green and white automobiles.
2. The white, blue, and green automobiles.
3. The white and yellow automobiles.
4. The green and yellow automobiles.

Answer: 2

25. When this traffic signal is red, traffic is prohibited:

1. Across the entire width of the roadway.
2. At a speed not exceeding 50 km/h.
3. In the lane over which the signal is located.

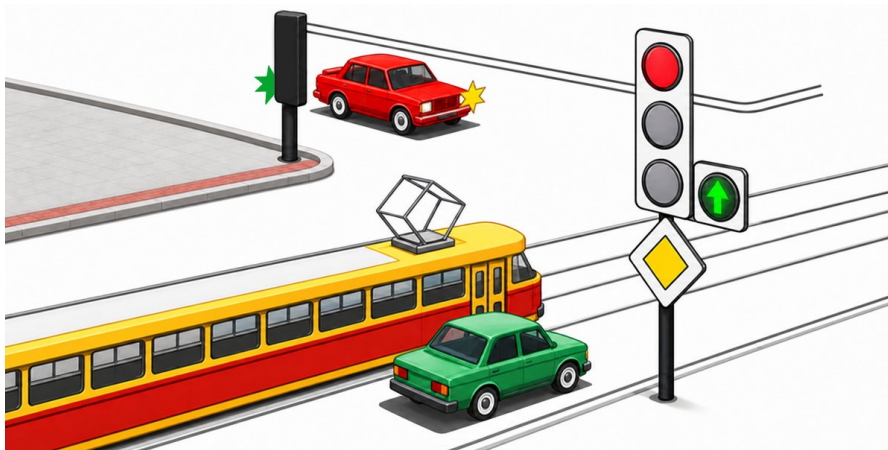

Answer: 3

26. What is the meaning of the circular flashing green traffic signal?

1. It indicates that entering the intersection is prohibited.
2. It permits traffic and indicates that its display period is ending and a prohibitory signal will be activated shortly.

Answer: 2

27. The vehicles will proceed through the intersection in the following order:

1. The tram, the red automobile, the green automobile.
2. The red automobile, then the tram simultaneously with the green automobile.
3. The tram simultaneously with the green automobile, then the red automobile.

Answer: 2

28. Which answer correctly identifies the vehicles that are permitted to proceed?

1. The automobiles and the motorcycle.
2. All vehicles.
3. The automobiles and the tram.

Answer: 1

29. If the traffic controller's right arm is extended forward, traffic of non-rail vehicles from the controller's left side is permitted:

1. Straight ahead and to the left.
2. In all directions.

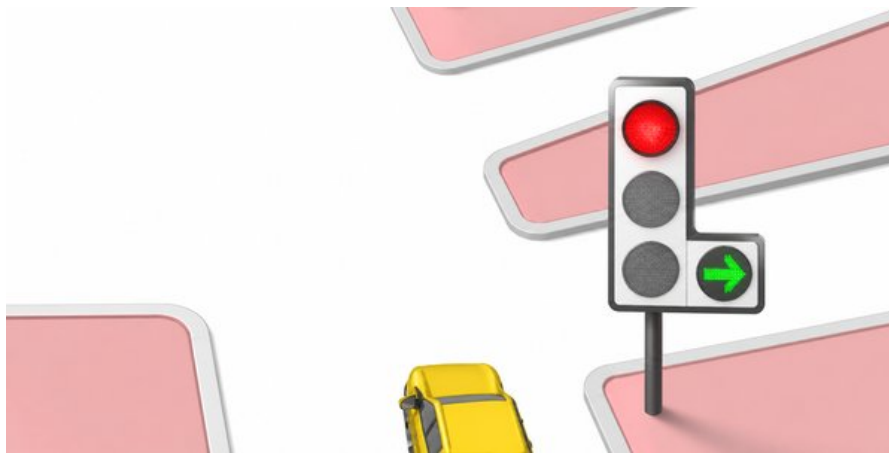

Answer: 2

30. Traffic is prohibited for:

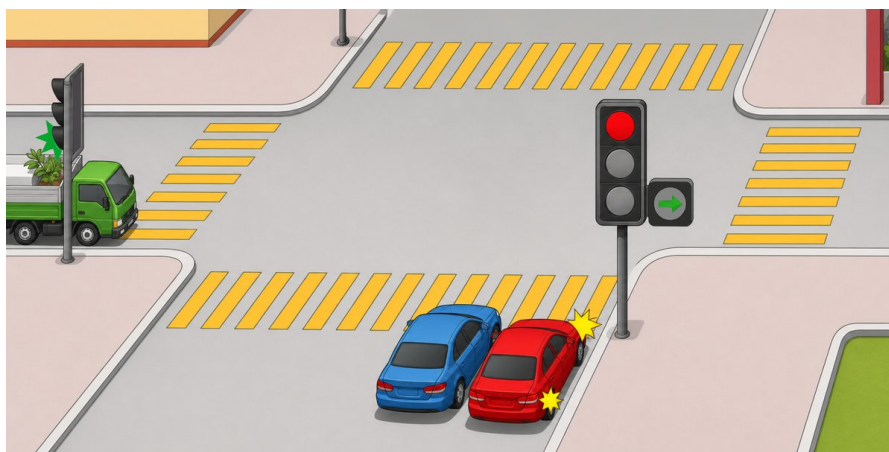

1. The blue-and-yellow automobile when proceeding to the left.
2. The blue-and-yellow automobile when proceeding straight ahead, and the red automobile when proceeding straight ahead and to the right.
3. The red automobile.

Answer: 1

31. In which direction is traffic permitted?

1. Straight ahead and to the right through the first passage.
2. **To the right through the first passage.**
3. To the right through the second passage.
4. To the right through the first and second passages.

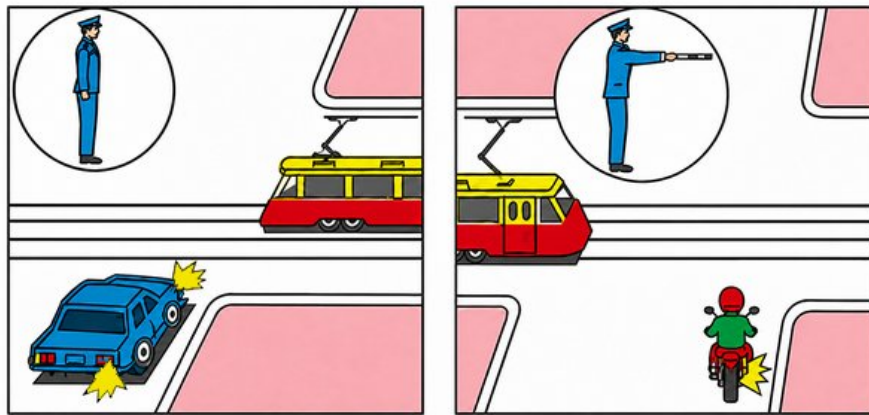

Answer: 2

32. Which vehicle will proceed through the intersection first?

1. The red automobile.
2. The blue automobile.
3. **The green automobile.**

Answer: 3

33. In which image is the driver making the turn correctly?

1. In the left image.
2. In the right image.
3. In both images.

Answer: 1

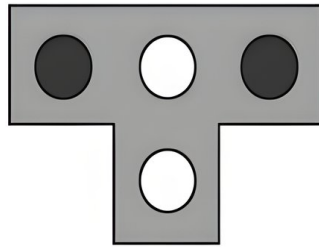

34. The red automobile will proceed through the intersection:

1. First.
2. Second.
3. Third.
4. Last.

Answer: 4

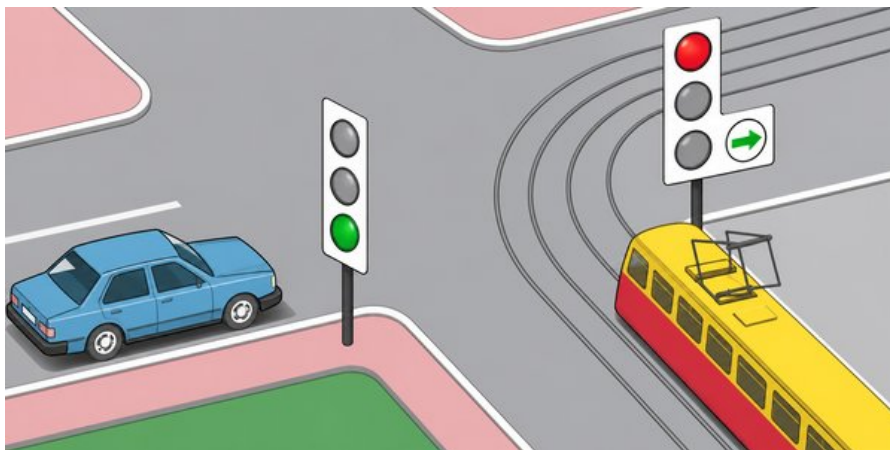

35. This traffic signal is used to regulate traffic:

1. For trams and trolleybuses.
2. For trams only.
3. For trams, as well as other public transit vehicles proceeding in designated lanes.

Answer: 3

36. The automobile will proceed through the intersection:

1. First.
2. Second.

Answer: 1

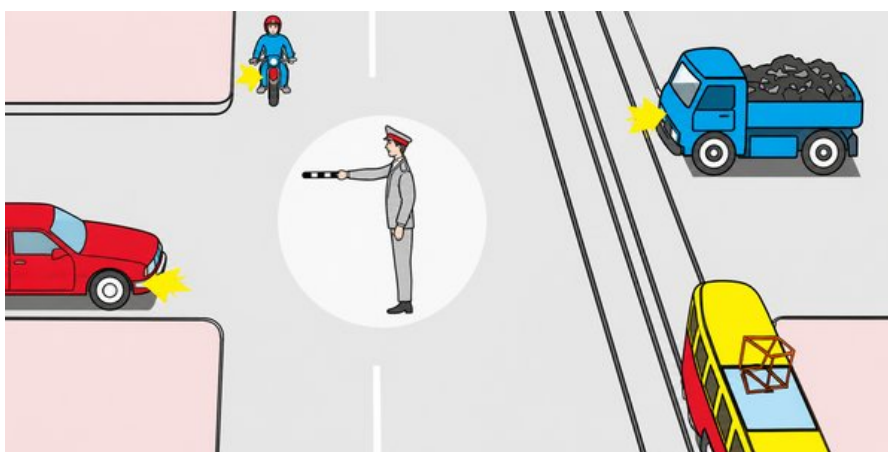

37. Traffic is permitted for:

1. The blue-and-yellow automobile straight ahead, and the red automobile to the right.
2. **The red automobile straight ahead and to the right, and the blue-and-yellow automobile straight ahead.**
3. Both automobiles straight ahead only.

Answer: 2

38. Traffic is permitted for:

1. **The red automobile.**
2. The motorcycle.
3. The tram and the red automobile.
4. The tram.
5. The blue automobile.

Answer: 1

39. Is it permitted to proceed along the indicated path when the reversible traffic signals are off?

1. Permitted.
2. Permitted for the purpose of passing.
3. **Prohibited.**
4. Permitted if there are no oncoming vehicles.

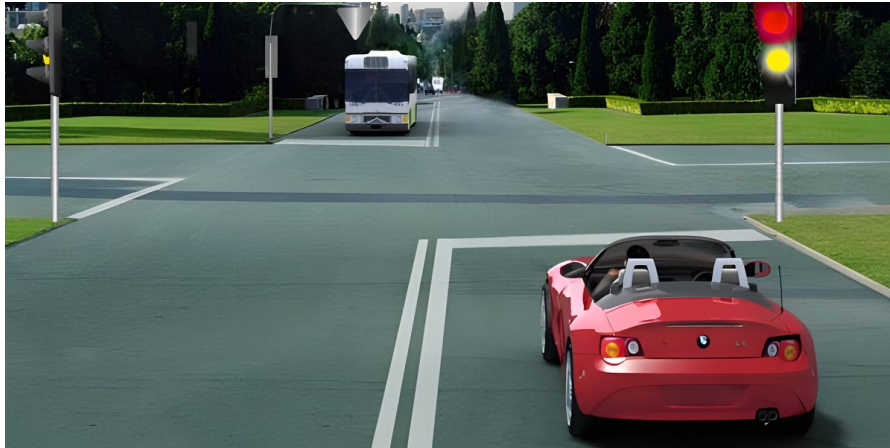

Answer: 3

40. In this situation, which vehicles are permitted to continue?

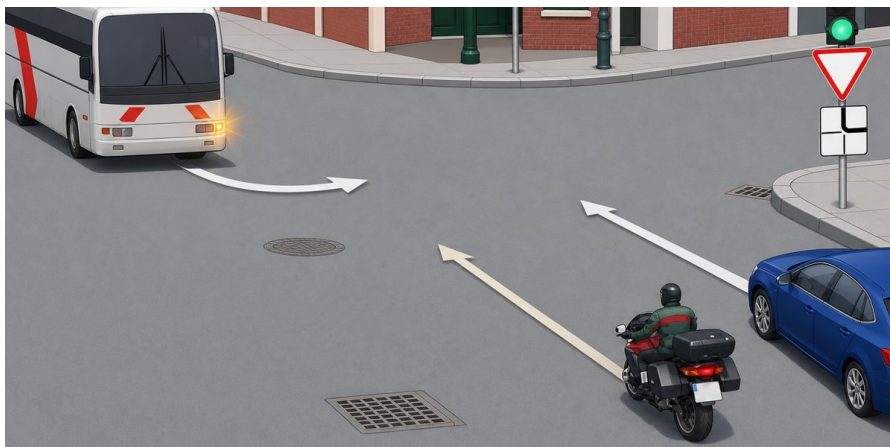

1. The passenger car straight ahead, the patrol vehicle in all directions, and the bus to the right only.
2. Only the patrol vehicle, in all directions.
3. **The patrol vehicle in all directions and the bus to the right only.**

Answer: 3

41. What does the traffic signal indicate?

1. The traffic signal is malfunctioning.
2. When proceeding through the intersection, drivers must follow the requirements of the traffic sign.
3. Drivers must wait for a permissive traffic signal.

Answer: 3

42. Which vehicle must yield?

1. The bus.
2. The motorcycle and the passenger car.

Answer: 1

43. The following drivers are permitted to continue along the indicated paths:

1. The truck driver.
2. The bus driver and the truck driver.
3. The passenger-car driver and the bus driver.
4. **The bus driver.**

Answer: 4

44. The vehicles will proceed through the intersection in the following order:

1. The tram, the passenger car, the bus.
2. **The passenger car, the tram, the bus.**
3. The passenger car, the bus, the tram.

Answer: 2

45. In this situation, is the bus driver permitted to proceed straight ahead?

1. Yes.
2. **No.**
3. Yes, if the bus is operating on an established route.

Answer: 2

46. In which direction may the driver continue?

1. **To the right through the first passage.**
2. To the right through the first and second passages.
3. To the left through the first passage.

Answer: 1

47. When making a right turn, the driver must yield to:

1. Only the bicyclist.
2. Only the pedestrians.
3. **The pedestrians and the bicyclist.**
4. The driver may continue without stopping.

Answer: 3

48. The vehicles will proceed through the intersection in the following order:

1. The tram, the bus, the truck, the motorcycle.
2. The bus, the truck, the tram, the motorcycle.
3. **The bus, then the tram and the motorcycle, then the truck.**

Answer: 3

49. In this situation, to which tram operator must you yield?

1. Neither of them.
2. Both tram operators.
3. Only A.

Answer: 2

50. Which driver has the right-of-way?

1. The bus driver.
2. The passenger-car driver.

Answer: 2

51. In this situation, when making a left turn:

1. I will yield to the tram.
2. I will proceed through the intersection first.

Answer: 2

52. What should you do in this situation?

1. Enter the intersection and, after yielding to the passenger-car driver, proceed through the intersection.
2. Wait before the "Stop Line" until the passenger-car driver has proceeded through the intersection.
3. Proceed first.

Answer: 1

53. In this situation, when making a right turn, must you yield?

1. Yes.
2. No.

Answer: 1

54. Is a right turn permitted in this situation?

1. Yes, provided you do not interfere with pedestrians.
2. No.

Answer: 1

55. In this situation, must you yield to the tram operator?

1. No.
2. Yes.

Answer: 2

56. When the green traffic signal turns on, the driver:

1. Must yield to the truck driver.
2. Has the right-of-way.

Answer: 1

57. At this intersection, the driver:

1. Will proceed first.
2. Must yield to the tram.

Answer: 1

58. When proceeding straight through the intersection, the driver:

1. May proceed first.
2. **Must yield to the tram.**
3. Must yield to both drivers.

Answer: 2

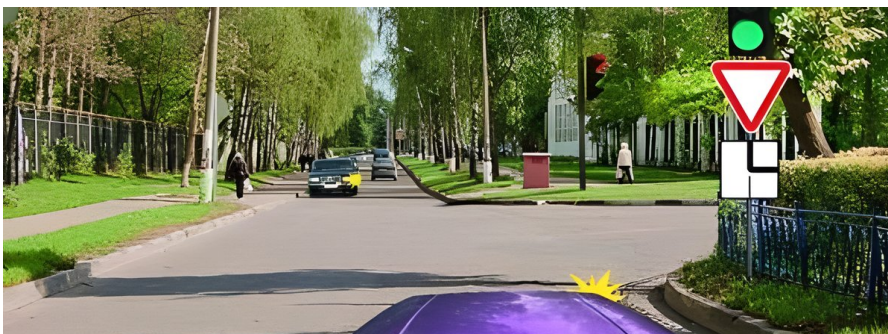

59. When making the turn, the driver must yield to:

1. Pedestrians only.
2. The bicyclist.
3. **The bicyclist and the pedestrians.**

Answer: 3

60. When making a right turn, must you yield to the driver approaching in the oncoming lane?

1. Yes.
2. **No.**

Answer: 2

61. When proceeding straight through the intersection:

1. We may proceed first.
2. We must yield to the passenger-car driver.

Answer: 2

62. When making a left turn, you must yield to:

1. Only the passenger-car driver.
2. Pedestrians only.
3. The passenger-car driver and the pedestrians.

Answer: 3

63. In this situation, is a right turn permitted?

1. No.
2. Yes, provided you do not interfere with the pedestrian.

Answer: 2

64. When making a left turn:

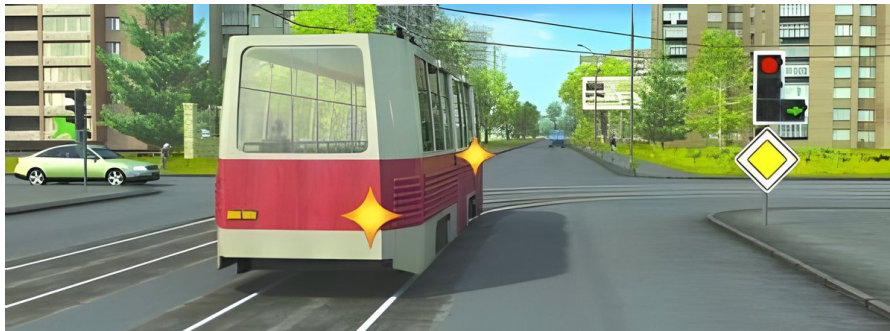

1. You must yield to the tram operator.
2. You will proceed through the intersection first.

Answer: 1

65. Which traffic signs do not apply when their requirements conflict with traffic signal indications?

1. Priority signs.
2. Prohibitory signs.
3. Mandatory signs.
4. All of the above.

Answer: 1

66. In this situation, who must yield?

1. The passenger-car driver.
2. The tram operator.

Answer: 2

67. When making a right turn:

1. We must yield to the tram operator.
2. We will proceed through the intersection first.

Answer: 2

68. You intend to make a left turn. To whom must you yield?

1. Only the tram operator.
2. No one.
3. The automobile driver and the tram operator.

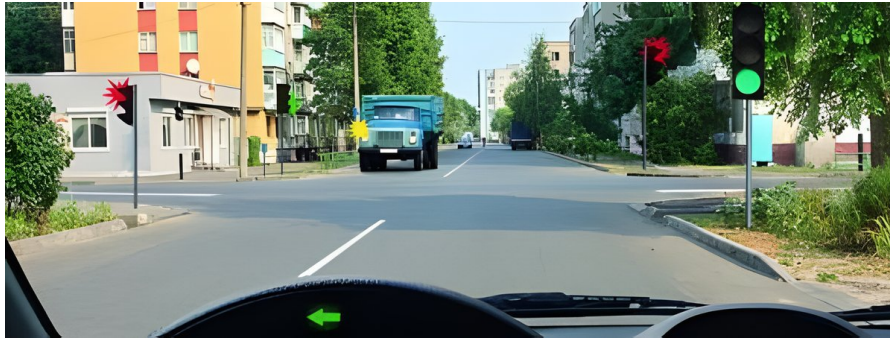

Answer: 3

69. When making a left turn:

1. I will complete the maneuver without stopping.
2. After entering the intersection, I will stop before the second "Stop Line" and wait for the green signal.

Answer: 2

70. In this situation, must we yield to the truck driver?

1. Yes.
2. No.

Answer: 1

71. In this situation, when making a left turn, you must:

1. Enter the intersection and wait for the traffic controller's signal permitting a left turn.
2. Stop before the "Stop Line" pavement marking and wait for the traffic controller's signal permitting a left turn.
3. Enter the intersection and, after yielding to the driver approaching in the oncoming lane, proceed through the intersection.

Answer: 2

72. In which case may you proceed through the intersection without yielding to another road user?

1. When proceeding straight ahead.
2. When making a right turn.
3. When making a left turn.

Answer: 1

73. When making a right turn, you must:

1. Stop before the "Stop Line" so as not to interfere with pedestrians.
2. Enter the intersection and stop so as not to interfere with pedestrians.
3. Proceed through the intersection without stopping.

Answer: 2

74. When making a right turn:

1. You must yield to the passenger-car driver.
2. You will proceed through the intersection first.

Answer: 2

75. After the permissive traffic signal turns on, we may enter the intersection:

1. Only when making a turn or a U-turn.
2. In all cases.

Answer: 1

76. When the green traffic signal turns on, we must:

1. Make sure that there are no pedestrians who have not finished crossing in the part of the pedestrian crossing that is not visible.
2. Immediately start moving in accordance with the traffic signal.

Answer: 1

77. In this situation, when making a U-turn, must you yield to the other driver?

1. No.
2. Yes.

Answer: 2

78. In which direction or directions may the driver continue in this situation?

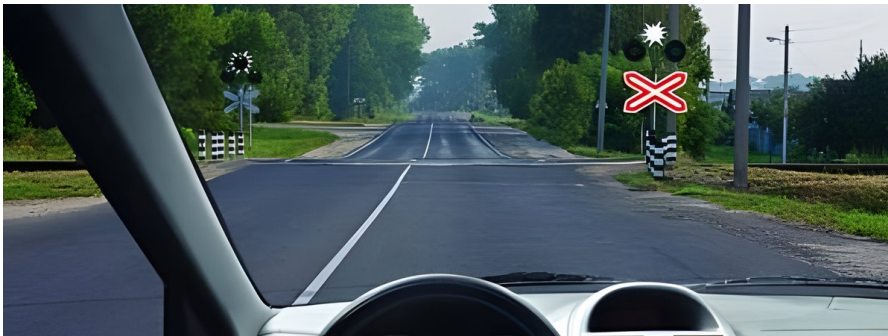

1. Straight ahead only.
2. Straight ahead and to the right.
3. Straight ahead and to the left.
4. In all directions.

Answer: 1

79. Which driver may continue?

1. Neither driver.
2. Only the bus driver.
3. Both drivers.

Answer: 3

80. Proceeding across the railroad crossing is:

1. Permitted.
2. Prohibited.

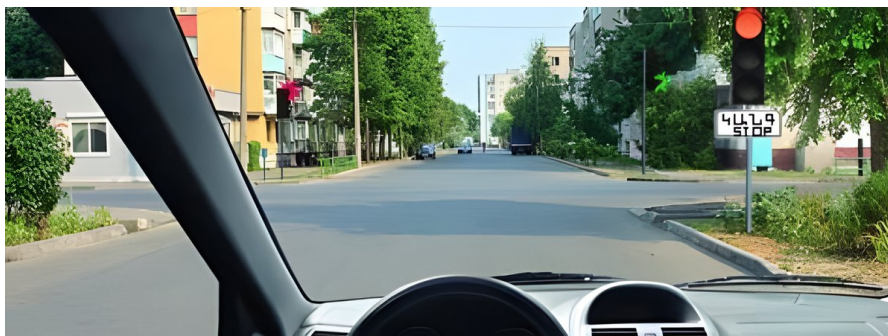

Answer: 1

81. The driver is:

1. Prohibited from proceeding through the intersection.
2. Permitted to proceed through the intersection in all cases.
3. Permitted to proceed through the intersection if the driver cannot stop before the "Stop Line" without sudden braking.

Answer: 1

82. When complying with the traffic signal, where must the driver stop?

1. Before the traffic signal.
2. Before the intersecting roadway.
3. At any location.

Answer: 1

83. A left turn is permitted:

1. From the reversible traffic lane.
2. From the lane indicated in the image.

Answer: 2

84. Traffic is permitted:

1. Straight ahead only.
2. To the right only.
3. Straight ahead and to the right.

Answer: 3

85. Traffic is permitted:

1. Straight ahead and to the right.
2. Straight ahead only.
3. To the right only.

Answer: 3

86. The arrows shown in the green traffic signal indicate that:

1. A right turn is prohibited.
2. Traffic to the right is controlled by an additional traffic-signal section.

Answer: 2

87. Is passing the truck permitted?

1. Yes.
2. No.

Answer: 2

88. In which direction or directions may the driver continue in this situation?

1. To the left only.
2. The driver must wait for a permissive signal.
3. To the left and by making a U-turn.

Answer: 3

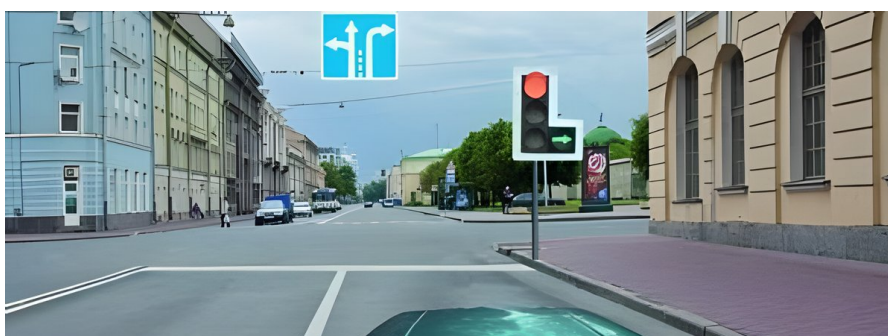

89. In this situation, entering the reversible traffic lane is:

1. Permitted.
2. Permitted only for the purpose of passing.
3. Prohibited.

Answer: 1

90. Proceeding straight ahead from the indicated lane is:

1. Permitted.
2. Permitted only after the main green signal turns on.
3. Prohibited.

Answer: 3

91. Traffic is permitted:

1. Straight ahead and to the right.
2. To the right only.
3. In all directions.

Answer: 3

92. In this situation, traffic is:

1. Permitted.
2. Prohibited.

Answer: 2

93. Before starting to move or performing a maneuver, a bus driver must make sure that:

1. There are no other vehicles in the driver's lane at that moment.
2. The maneuver is safe and will not create an obstruction for other road users.
3. The maneuver will be completed as quickly as possible to clear the road.

Answer: 2

94. Is it permitted to proceed on tram tracks in the same direction located on the left side of the roadway at the same level as the roadway if all lanes in that direction are occupied?

1. Permitted if no other traffic arrangement is established by appropriate signs and if this does not interfere with tram traffic.
2. Permitted only when the vehicle is passing.
3. Prohibited in all cases because tram tracks are intended exclusively for rail vehicles.

Answer: 1

95. If the roadway is divided into lanes by pavement markings, when is a driver permitted to cross the broken lines separating the lanes?

1. Only when changing lanes.
2. The driver may cross and proceed along the broken line at any time if there are no other vehicles on the road.
3. In both cases.

Answer: 1

96. What following distance must a bus driver maintain from the vehicle ahead?

1. A distance sufficient to avoid a collision with it.
2. A distance that allows vehicles passing the bus to complete the passing maneuver and change back into the lane ahead without obstruction.

Answer: 1

97. What lateral distance must a bus driver maintain from a vehicle traveling alongside?

1. A distance sufficient to avoid a collision with it.
2. At least 0.5 meters.
3. At least 1 meter.

Answer: 1

98. Outside populated areas, on two-way roads with one lane in each direction, what distance must drivers of buses longer than 7 meters maintain from the vehicle ahead?

1. At least 50 meters, regardless of speed and road conditions.
2. A distance sufficient to allow drivers passing them to change back into the previously occupied lane without obstruction if necessary.
3. At their discretion, based on traffic safety.

Answer: 2

99. Before beginning to pass, among other requirements, a bus driver must make sure that:

1. After completing the passing maneuver, the driver can return to the previously occupied lane without interfering with the vehicle being passed.
2. The driver of the vehicle ahead has noticed the maneuver and is yielding by reducing speed.
3. In both cases.

Answer: 1

100. Before beginning to pass, among other requirements, a bus driver must make sure that:

1. Vehicles behind are maintaining sufficient distance, and the vehicle ahead has already begun to reduce speed to yield.
2. A vehicle traveling behind in the same lane has not started passing, and the vehicle ahead has not signaled an intention to pass, turn left, or make a U-turn.
3. In both cases.

Answer: 2

101. Are non-rail vehicles permitted to pass on the right?

1. Permitted when the driver of the vehicle ahead has given a left-turn signal and begun the maneuver.
2. Prohibited in all cases because passing must be performed only on the left for safety reasons.

Answer: 1

102. When it is difficult to pass a large bus outside a populated area, what must the bus driver do?

1. **Proceed as far to the right as possible and, if necessary, stop to allow vehicles traveling behind to pass.**
2. Activate the hazard warning lights and continue at the same speed until reaching a section where passing is permitted.

Answer: 1

103. Is a bus driver permitted to pass several vehicles at the same time?

1. **Permitted if the maneuver is safe for other road users.**
2. Prohibited; after passing each vehicle, the driver must return to the previously occupied lane before beginning the next passing maneuver.
3. Permitted only when passing slow-moving vehicles.

Answer: 1

104. Is it permitted to begin passing a vehicle whose driver has given a left-turn signal and begun the maneuver?

1. Permitted.
2. Prohibited.
3. **Permitted only if the passing maneuver is performed on the right.**

Answer: 3

105. Is making a U-turn prohibited at locations where visibility in at least one direction is less than 100 meters?

1. Prohibited only within populated areas.
2. Prohibited outside populated areas.
3. **Prohibited on all roads.**
4. Not prohibited.

Answer: 3

106. What must a bus driver do to ensure safety when reversing?

1. Continuously use the audible warning signal.
2. Activate the marker lights and proceed at the lowest possible speed.
3. **If necessary, seek assistance from other persons.**
4. Perform all of the listed actions.

Answer: 3

107. How must a driver determine the number of traffic lanes if pavement markings and the appropriate mandatory signs establishing directions of travel are absent?

1. If there are no pavement markings, the road is considered to have one lane regardless of its width.
2. **The number of lanes is determined taking into account the width of the roadway, the dimensions of vehicles, and the necessary lateral distance between them.**

Answer: 2

108. On roads with three or more lanes in the same direction, when may buses performing regular transportation occupy the leftmost lane?

1. During heavy traffic if all other lanes are occupied.
2. Only for passing other vehicles or driving around an obstruction.
3. **Only for making a left turn or U-turn.**
4. In any case.

Answer: 3

109. A bus cannot exceed 40 km/h for technical reasons. Is it permitted to leave the occupied rightmost lane in order to stop on the left side?

1. Prohibited, because vehicles traveling at no more than 40 km/h must proceed exclusively in the rightmost lane and may not leave it.
2. **Permitted if the stop is made at a location where stopping is allowed by the rules.**

Answer: 2

110. During heavy traffic within a populated area, when is changing lanes permitted?

1. Only when making left or right turns.
2. Only when making a U-turn.
3. Only before driving around an obstruction or stopping.
4. **In all of the listed cases.**
5. Only in cases 1 and 3.

Answer: 4

111. Is bus traffic on shoulders, sidewalks, and pedestrian paths prohibited when no other option is available?

1. Prohibited.
2. **Permitted for buses of road-maintenance and municipal-service organizations, provided they do not interfere with pedestrians and traffic safety is ensured.**

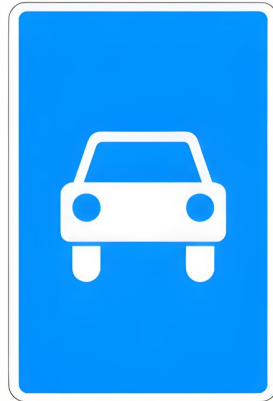

Answer: 2

112. Outside a populated area, in which lane must buses proceed?

1. **As close as possible to the right edge of the roadway.**
2. In any lane except the leftmost lane.
3. At the driver's discretion, while ensuring traffic safety.

Answer: 1

- 113.** Within a populated area, on a road marked with the “Road for Motor Vehicles” sign, in which lane must buses proceed?

1. As close as possible to the right edge of the roadway.
2. In any lane except the leftmost lane.

Answer: 1

- 114.** On a road with three lanes in the same direction, in which lanes may buses performing regular passenger transportation proceed?

1. Only in the first and second lanes.
2. In any lane if traffic is heavy and the other lanes are occupied.

Answer: 1

- 115.** Is a bus driver permitted to proceed at an unnecessarily low speed?

1. Permitted if the driver is tired.
2. Prohibited if doing so impedes the movement of other vehicles.
3. Permitted only when proceeding through intersections or complying with traffic controller signals.

Answer: 2

- 116.** When selecting a speed, a bus driver is prohibited from:

1. Exceeding the speed specified by the “Speed Limit” identification sign displayed on the vehicle.
2. Proceeding at less than 60 km/h on all roads where no minimum-speed sign is installed.
3. In both cases.

Answer: 1

- 117.** When selecting a speed, a bus driver is prohibited from:

1. Transporting luggage at the maximum permitted speed established for that road section if no specific speed limit is indicated in the cargo documents.
2. Exceeding the speed specified by the “Speed Limit” identification sign displayed on the vehicle.
3. In both cases.

Answer: 2

118. While driving, a bus driver is prohibited from:

1. Braking suddenly unless necessary to prevent a road traffic crash.
2. Braking when the vehicle behind is not maintaining a safe distance.
3. In both cases.

Answer: 1

119. Within a populated area, when the “Maximum Speed Limit” sign is used, what is the highest maximum permitted speed that may be established by the competent authorities?

1. 80 km/h.
2. 90 km/h.
3. Any speed that is safe for that road section.

Answer: 1

120. Outside populated areas, when the “Maximum Speed Limit” sign is used, what is the highest maximum permitted speed that may be established by the competent authorities?

1. 100 km/h.
2. 110 km/h.
3. Any speed that is safe for that road section.

Answer: 2

121. Within a populated area, the maximum permitted speed has been set at 80 km/h by a “Maximum Speed Limit” sign. What is the maximum speed permitted for an automobile carrying people in an equipped cargo body and for an automobile transporting an organized group of children?

1. 80 km/h.
2. 50 km/h.
3. 60 km/h.

Answer: 3

122. What is the maximum speed permitted for a bus driver when towing a passenger car?

1. 50 km/h.
2. 60 km/h.
3. 90 km/h.

Answer: 1

123. What is the maximum speed permitted within populated areas for a bus transporting an organized group of children?

1. 50 km/h.
2. 60 km/h.
3. 40 km/h.

Answer: 2

124. What is the maximum speed permitted outside populated areas for a bus transporting an organized group of children?

1. 60 km/h.
2. 90 km/h.
3. 110 km/h.

Answer: 1

125. What is the maximum speed permitted outside populated areas for buses that are not performing suburban, interregional, or intercity transportation?

1. 70 km/h.
2. 90 km/h.
3. 60 km/h.

Answer: 1

126. A bus driver must select a speed that:

1. Allows the driver to maintain full control of the vehicle.
2. Allows the driver to stop only when another vehicle or an obstruction is present within the visible distance.
3. Ensures both of the above conditions.

Answer: 1

127. If a "Speed Limit" identification sign is displayed on a bus, the bus driver:

1. May exceed that speed only on a road section where the speed limit has been increased by an appropriate road sign.
2. Is prohibited from exceeding the speed indicated on the identification sign.
3. May exceed the speed indicated on the sign when proceeding on a motorway.
4. May exceed the indicated speed by 20 km/h if necessary to complete a passing maneuver.

Answer: 2

128. Is the driver of a fixed-route bus permitted to proceed at a very low speed?

1. Permitted if this does not impede the movement of other vehicles.
2. Prohibited because it would disrupt the route schedule.
3. Prohibited in all cases.

Answer: 1

129. When must a bus driver switch off the signal given by the direction indicator when changing lanes for the purpose of overtaking?

1. After completing the manoeuvre.
2. Immediately after passing the vehicle being overtaken.
3. After returning to the previously occupied lane.

Answer: 1

130. Is a bus driver permitted to pass a vehicle that has reduced speed immediately before an intersection?

1. Permitted if there are no pedestrians crossing the roadway at that moment.
2. Prohibited.
3. Permitted if visibility at the intersection is sufficient to perform the maneuver safely.

Answer: 2

131. Is a bus driver permitted to pass at the crest of a hill if the passing maneuver is performed without entering the oncoming traffic lane?

1. Permitted.
2. Prohibited.

Answer: 1

132. Is a bus driver permitted to pass at the crest of a hill if the passing maneuver requires entering the oncoming traffic lane?

1. Permitted.
2. Prohibited.
3. Permitted if there are no vehicles in the oncoming lane.

Answer: 2

133. Is a bus driver permitted to pass on sections of road with limited visibility when the maneuver requires entering the oncoming traffic lane?

1. Permitted.
2. Prohibited.
3. Permitted if the driver is sure the maneuver can be completed safely.

Answer: 2

134. Is a bus driver permitted to pass on sections of road with limited visibility when the maneuver is performed without entering the oncoming traffic lane?

1. Permitted.
2. Prohibited.

Answer: 1

135. Is a bus driver permitted to pass on sections of road with limited visibility?

1. Permitted if the passing maneuver is performed without entering the oncoming traffic lane.
2. Prohibited regardless of visibility and whether the maneuver requires entering the oncoming lane.
3. Permitted at any time.

Answer: 1

136. Is a bus driver permitted to pass on narrow sections of road?

1. Permitted if the passing maneuver is performed without entering the oncoming traffic lane.
2. Prohibited.
3. Permitted if the driver is sure the maneuver can be completed safely.

Answer: 2

137. Is a bus driver prohibited from passing when the driver of the vehicle being passed is:

1. Passing.
2. Driving around an obstruction.
3. In both cases.

Answer: 3

138. Is bus parking permitted in residential zones outside places designated, signed, and marked for parking?

1. Prohibited because only passenger cars belonging to residents of that area may park in a residential zone.
2. Permitted for all buses.
3. Permitted only for minibuses.

Answer: 3

139. During daylight hours, to warn of passing, instead of or together with an audible signal, a light signal may be given by:

1. Repeatedly switching the headlights from low beam to high beam.
2. Repeatedly switching the headlights on and off.
3. In both cases.

Answer: 2

140. What is the maximum permitted speed outside populated areas on all roads for buses performing interregional and intercity passenger transportation?

1. 90 km/h.
2. 110 km/h.
3. 60 km/h.

Answer: 1

141. Is the driver of an intercity bus permitted to exceed 70 km/h outside populated areas?

1. Permitted up to 110 km/h on motorways.
2. Permitted provided the speed does not exceed 90 km/h.
3. Prohibited.

Answer: 2

142. Are tourist buses permitted to travel at 70 km/h outside populated areas?

1. Permitted.
2. Prohibited.

Answer: 1

143. Traffic is permitted:

1. Only in the opposite direction.
2. Straight ahead only.
3. Straight ahead and in the opposite direction only.

Answer: 3

144. If you are driving a bus, may you begin passing?

1. Yes.
2. **No.**
3. Only after passing the sign.

Answer: 2

145. Is the driver of a bus weighing more than 5 metric tons permitted to begin passing in this situation?

1. Yes.
2. No.
3. **Yes, if the driver is sure the maneuver will be completed before reaching a point 100 meters from the railroad crossing.**

Answer: 3

146. This sign does not apply to:

1. **Public transit vehicles only.**
2. Drivers of all buses.
3. Public transit vehicles and taxis only.

Answer: 1

147. Passing along the indicated path is:

1. Prohibited.
2. Permitted.
3. Permitted only for drivers of public transit buses.

Answer: 1

148. Within a populated area, when there are two lanes in the same direction, are public transit vehicles permitted to occupy the leftmost lane?

1. Permitted when passing.
2. Permitted when making a left turn or U-turn.
3. Permitted in all cases.

Answer: 3

149. On roads marked with this sign, drivers of interregional buses may proceed at no more than:

1. 90 km/h.
2. 70 km/h.
3. 60 km/h.

Answer: 3

150. On roads marked with this sign, drivers of intercity buses may proceed at no more than:

1. 90 km/h.
2. 70 km/h.
3. 60 km/h.

Answer: 1

151. What is the maximum speed at which the driver of a suburban bus may proceed in this situation?

1. 60 km/h.
2. 70 km/h.
3. 90 km/h.

Answer: 3

152. What is the maximum permitted speed for buses in areas marked with the “Residential Zone” and “End of Residential Zone” signs?

1. 60 km/h.
2. 20 km/h.
3. 40 km/h.

Answer: 2

153. At what speed may a bus driver continue proceeding within the zone marked by this road sign?

1. At not less than 60 km/h but not more than 90 km/h.
2. At not less than 60 km/h but not more than 70 km/h.
3. At no more than 60 km/h.

Answer: 1

154. When these signs are present, which vehicle is prohibited from turning right?

1. All buses.
2. Trolleybuses.
3. Trucks.

Answer: 1

155. Outside a populated area, is a bus driver permitted to pass the trucks along the indicated path?

1. Permitted.
2. Permitted if the trucks are traveling at less than 30 km/h.
3. **Not permitted.**

Answer: 3

156. Is passing permitted in a tunnel?

1. Permitted.
2. Permitted only if artificial lighting is present.
3. **Prohibited.**

Answer: 3

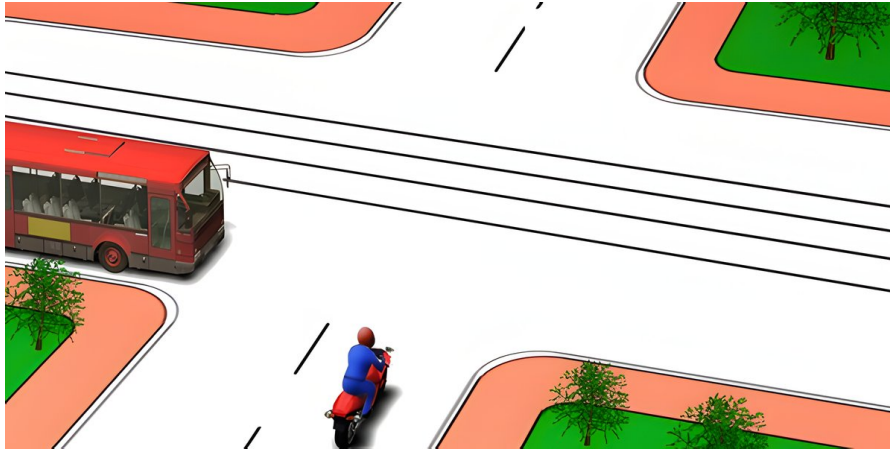

157. You are driving a bus. With the traffic signal flashing yellow, must you yield to the tram?

1. Must yield, because at any intersection a tram has the right-of-way over non-rail vehicles.
2. **Not required, because the tram is on a secondary road.**

Answer: 2

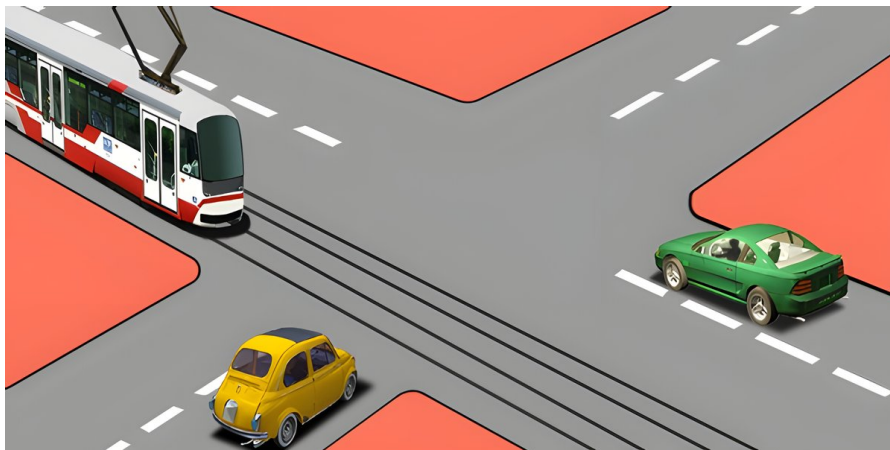

158. Must the bus driver yield to the motorcycle?

1. Not required, because the bus has larger dimensions, which gives it priority over the motorcycle.
2. **Must yield.**

Answer: 2

159. May the tram pass through the intersection first, simultaneously with the green automobile?

1. **Yes.**
2. No, the tram must yield to the yellow automobile.

Answer: 1
